**RAPID RECHARGE****WELCOME!**

Congratulations, you're now the proud owner of the myCharge **RAPID RECHARGE**! This powerbank was designed with your on-the-go charging needs in mind and is compatible with virtually all USB devices.

The portable powerbank's 4000mAh battery capacity guarantees that your device can stay charged and connected wherever your travels may take you.

PRODUCT SPECS

- Battery Capacity: High Density 4000mAh Battery
- Wall Prong Input: 100-240VAC 50/60Hz 0.3A
- USB Output: 5VDC, 2.4A
- Dimensions: 4.3 x 2.2 x 0.9 inches
- Weight: 0.31 lbs.

PRODUCT TECHNOLOGIES

Your new powerbank is built with these technologies to give you the fastest, safest, and smartest user experience possible:

ULTRA-FAST RECHARGING

Allows for the powerbank to recharge at the fastest rate possible through its integrated wall prongs

SMARTSENSE™

Detects the connected device and charges it at the maximum speed allowed by the device, shortening charge time

PASS-THROUGH CHARGING

Charges the powerbank and the device in parallel. You'll have both charged for extra power when you need it

BATTERY PROTECTION

Protects the powerbank and your device against overcharging, undercharging, overtemperature, overcurrent and short circuit for your safety

HIGH EFFICIENCY

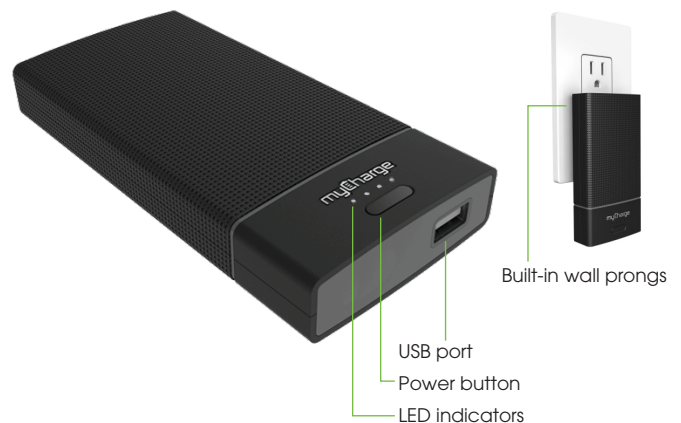

Maximizes power to your device by minimizing the loss of energy delivered, keeping you powered longer

HIGH DENSITY BATTERY

Increases run-time between charges and makes the **RAPID RECHARGE** compact for its capacity

HELPFUL TIP

**CHARGING DEVICES USING YOUR RAPID RECHARGE**

Use your own device's cable to charge it through the USB port of the **RAPID RECHARGE**. When the device is plugged in, the **RAPID RECHARGE** will continue to charge it until it is unplugged or runs out of power. With Smart Sense™ technology, your **RAPID RECHARGE** is compatible with just about any device on the market – smartphones, tablets, eReaders, GPS and more. It senses what device it's plugged into and provides the maximum power allowed, giving you the benefit of faster charging. The **RAPID RECHARGE**'s high efficiency technology minimizes energy loss from the input source to the powerbank and from the powerbank to the device.

RECHARGING YOUR RAPID RECHARGE

Your **RAPID RECHARGE** is designed with ultra-fast recharging technology, maximizing the amount of available power going into your charger through its built-in wall prongs.

Your **RAPID RECHARGE** has pass-through charging, allowing you to charge both the powerbank and your device simultaneously.

As your **RAPID RECHARGE** recharges, the LEDs will illuminate to indicate the battery level. A fully charged unit shows 4 solid, non-blinking LEDs. It is normal for your **RAPID RECHARGE** to be warm to the touch while in use.

CHECKING BATTERY LEVEL

Your **RAPID RECHARGE** contains high density batteries, allowing for the powerbank to remain compact and powerful for ultimate portability. To check the battery level, press the power button. The LEDs will illuminate to show you how much battery life remains – 4 solid LEDs mean your **RAPID RECHARGE** is fully charged and 1 LED means that it's almost empty. If you see 1 LED blinking, this means you have less than 5% remaining and should recharge.

- ○ ○ ○ = 0% - 25%
- ● ○ ○ = 26% - 50%
- ● ● ○ = 51% - 75%
- ● ● ● = 76% - 100%

FAQ/TROUBLESHOOTING

Will my **RAPID RECHARGE** charge any smartphone?

Your **RAPID RECHARGE** is fully compatible with virtually all smartphones. The powerbank will identify which device is connected through its SmartSense™ technology.

Will my **RAPID RECHARGE** charge any other devices?

Yes, the **RAPID RECHARGE** is built with a 2.4A output. This allows high-powered devices to be charged including tablets, eReaders, GPS and more.

What should I do if my device doesn't charge?

Press the power button of your **RAPID RECHARGE** to initiate charging and to check battery level. It is possible that there is simply not enough power to charge your device, recharge your **RAPID RECHARGE** if needed. If your device still isn't charging, check that the charging cable is properly connected to the USB port and to your device.

Why are some LEDs solid and some flashing when I recharge the **RAPID RECHARGE**?

The solid LEDs tell you how much the powerbank is currently charged, while the flashing LEDs indicate how much is left to charge. Your **RAPID RECHARGE** is fully charged when all 4 LEDs are solid.

Can I charge my device and the **RAPID RECHARGE** at the same time?

Yes! The **RAPID RECHARGE** has pass-through charging technology, which means you can simultaneously charge your device alongside the **RAPID RECHARGE** rather than charging each separately.

How many charge cycles do I get with the **RAPID RECHARGE**?

From empty to full, the **RAPID RECHARGE** is capable of recharging at least 500 times! Count on your myCharge to keep you going.

WARRANTY INFORMATION

We are dedicated to making the highest quality products possible. In that, we provide a one-year limited warranty from the date of purchase. Keep a copy of your purchase receipt as proof of purchase and register your product at mycharge.com to activate it and check for the latest product updates as they develop. Failure to register your product and/or to provide proof of purchase may void the warranty.

RFA Brands, LLC sells its products with the intent that they are free of defects in manufacture and workmanship for a period of one year from the date of original purchase, except as noted in our policy. RFA Brands, LLC warrants that its products will be free of defects in material and workmanship under normal use and service. This warranty extends only to consumers and does not extend to Retailers.
