AMPMAX

WELCOME!

Congratulations, you're now the proud owner of the myCharge **AMP**MAX! This powerbank was designed with your on-the-go charging needs in mind and is compatible with virtually all USB devices.

The portable powerbank's 6000mAh battery capacity guarantees that your device can stay charged and connected wherever your travels may take you.

PRODUCT SPECS

• Battery Capacity: High Density 6000mAh Battery

• Micro-USB Input: 5VDC, 0.7A-2.1A

• USB Output: 5VDC, 2.4A

• Dimensions: 2.8 x 2.1 x 0.9 inches

• Weight: 0.29 lbs.

PRODUCT TECHNOLOGIES

Your new powerbank is built with these technologies to give you the fastest, safest, and smartest user experience possible:

SMART SENSE™
Detects the connected device and charges it at the maximum speed allowed by the device, shortening charge time

PEAK POWER™
Provides faster recharge of the **AMP**MAX as it maximizes the amount of available power going into the powerbank

PASS-THROUGH CHARGING
Charges the powerbank and the device in parallel. You'll have both charged for extra power when you need it

BATTERY PROTECTION
Protects the powerbank and your device against overcharging, undercharging, overtemperature, overcurrent and short circuit for your safety
HIGH EFFICIENCY
Maximizes power to your device by minimizing the loss of energy delivered, keeping you powered longer

HIGH DENSITY BATTERY
Increases run-time between charges and makes the **AMP**MAX compact and lightweight

Micro-USB recharging port

CHARGING DEVICES USING YOUR **AMP**MAX

If your device is charged through a micro-USB port, feel free to use the recharging cable provided, otherwise use your own device's cable to charge it. When the device is plugged in, the **AMP**MAX will continue to charge it until it is unplugged or runs out of power. With SmartSense™ technology, your **AMP**MAX is compatible with just about any device on the market – smartphones, tablets, eReaders, GPS and more. It senses what device it's plugged into and provides the maximum power allowed, giving you the benefit of faster charging. The **AMP**MAX's high efficiency technology minimizes energy loss from the input source to the powerbank and from the powerbank to the device.

RECHARGING YOUR **AMP**MAX

Connect the included recharging cable to your **AMP**MAX and to a power source – wall, computer, or car. Your **AMP**MAX is built with Peak Power™ technology that maximizes the amount of available power going into your charger so you can rest assured that it's recharging at the fastest rate allowed by the power source.

Your **AMP**MAX has pass-through charging, allowing you to charge both the powerbank and your device simultaneously.

As your **AMP**MAX recharges, the LEDs will illuminate to indicate the battery level. A fully charged unit shows 4 solid, non-blinking LEDs. It is normal for your **AMP**MAX to be warm to the touch while in use.

CHECKING BATTERY LEVEL

Your **AMP**MAX contains high density batteries, allowing for the powerbank to remain small and powerful for ultimate portability. To check the battery level, press the power button. The LEDs will illuminate to show you how much battery life remains – 4 solid LEDs mean your **AMP**MAX is fully charged and 1 LED means that it's almost empty. If you see 1 LED blinking, this means you have less than 5% remaining and should recharge.

● ○ ○ ○ = 0% - 25%
● ● ○ ○ = 26% - 50%
● ● ● ○ = 51% - 75%
● ● ● ● = 76% -100%

FLASHLIGHT

We wanted to build you a product that multitasks just like you! Besides being a small, high-powered powerbank for your on-the-go needs, you can also use the **AMP**MAX for its integrated LED flashlight. To use the built-in flashlight, press and hold the round button.

FAQ/TROUBLESHOOTING

Which port recharges my AMPMAX and which charges my device?
The small micro-USB port is used to recharge your **AMP**MAX (recharge cable included). The larger USB port is used for charging your devices with your own cable.

Will my AMPMAX charge any smartphone?
Your **AMP**MAX is fully compatible with virtually all smartphones. The powerbank will identify which device is connected through its SmartSense™ technology.

Will my AMPMAX charge any other devices?
Yes, the **AMP**MAX is built with a 2.4A output. This allows high-powered devices to be charged including tablets, eReaders, GPS and more.

What can I use to recharge my AMPMAX?
You can recharge your **AMP**MAX by connecting it to any USB port through the recharging cable provided. For maximum charging speed connect to a wall USB adapter or car outlet.

What should I do if my device doesn't charge?
Press the power button of your **AMP**MAX to initiate charging and to check battery level. It is possible that there is simply not enough power to charge your device, recharge your **AMP**MAX if needed. If your device still isn't charging, check that the charging cable is properly connected to the USB port and to your device

Why are some LEDs solid and some flashing when I recharge the AMPMAX?
The solid LEDs tell you how much the powerbank is currently charged, while the flashing LEDs indicate how much is left to charge. Your **AMP**MAX is fully charged when all 4 LEDs are solid.

Can I charge my device and the AMPMAX at the same time?
Yes! The **AMP**MAX has pass-through charging technology, which means you can simultaneously charge your device alongside the **AMP**MAX rather than charging each separately.

How many charge cycles do I get with the AMPMAX?
From empty to full, the **AMP**MAX is capable of recharging at least 500 times! Count on your myCharge to keep you going.

WARRANTY INFORMATION

We are dedicated to making the highest quality products possible. In that, we provide a one-year limited warranty from the date of purchase. Keep a copy of your purchase receipt as proof of purchase and register your product at mycharge.com to activate it and check for the latest product updates as they develop. Failure to register your product and/or to provide proof of purchase may void the warranty.

RFA Brands, LLC sells its products with the intent that they are free of defects in manufacture and workmanship for a period of one year from the date of original purchase, except as noted in our policy. RFA Brands, LLC warrants that its products will be free of defects in material and workmanship under normal use and service. This warranty extends only to consumers and does not extend to Retailers.
